

Ahmed Darhous

Security Operations Manager | Crisis Management Specialist | MBA Candidate

Cairo, Egypt | +20 103 000 2331 | ahmeddarhous@gmail.com

PROFESSIONAL SUMMARY

Strategic operations and security professional with over 8 years of leadership experience in law enforcement, crisis management, and logistics. Currently pursuing an MBA at The American University in Cairo (AUC). Combines a strong legal and security background with business acumen and technical proficiency in automation and programming. Proven track record in managing complex field operations, stakeholder relations, and personnel administration. Seeking to leverage expertise in risk mitigation, operational efficiency, and team leadership within a dynamic corporate environment.

PROFESSIONAL EXPERIENCE

Senior Liaison & External Relations Officer

Ministry of Interior | Jul 2025 - Present

- Acted as the primary focal point for strategic coordination between the Ministry and external governmental and non-governmental entities.
- Managed personnel affairs, ensuring seamless communication regarding staff requirements, administrative compliance, and resource planning.
- Facilitated cross-functional cooperation to streamline administrative processes and resolve inter-departmental challenges effectively.

Operations & Deployment Coordinator

Ministry of Interior | 2023 - Jul 2025

- Directed daily operational plans and managed deployment rosters for officers across various sectors (resource allocation).
- Coordinated field operations, ensuring optimal readiness for mission-critical tasks and routine patrols.
- Monitored operational performance using data-driven insights to implement adjustments that enhanced response times and efficiency.

Criminal Investigation Officer

Ministry of Interior | 2018 - 2023

- Conducted high-level investigations, gathering intelligence and evidence to support legal proceedings and risk assessments.
- Managed crisis situations and high-stress field operations with a focus on public safety and asset protection.
- Prepared detailed technical and legal reports regarding security incidents, crime trends, and mitigation strategies.
